^a The stand-alone HPV Vaccine for Female Adolescents measure (NQF #1959) has been retired by the measure steward, and added to the IMA-CH measure. Therefore, CMS will retire the standalone HPV-CH measure from the Child Core Set and update the IMA-CH measure accordingly.

^b CMS and AHRQ will test the child version of the Hospital Consumer Assessment of Healthcare Providers and Systems (Child HCAHPS) survey (NQF #2548) to assess the extent to which this hospital-level measure can be reported at the state-level. As such, the measure will not be added to the Child Core Set at this time but CMS will continue to assess its feasibility for possible addition in future Core Sets.
