Who We Are

Medicaid gives access to health care for those who qualify. This is determined based on income and/or resources. In Oklahoma, SoonerCare is the name of the Medicaid program, and the Oklahoma Health Care Authority (OHCA) is the state agency that administers it.

SoonerCare works to ensure that medically-necessary benefits and services are available to qualifying Oklahomans. These include certain low-income children, seniors, the disabled, breast or cervical cancer patients, and those seeking family planning services.

Twenty-six percent of Oklahoma lives are covered by OHCA. The OHCA Primer lists additional qualifying groups at www.okhca.org/reports.

The OHCA also operates Insure Oklahoma, which assists qualifying adults and small business employees in obtaining health care coverage for themselves and their families.

What We Cover

There are limits in place to ensure that SoonerCare provides **only medically-necessary services** and, in some cases, particular benefits are for children only. Many services are required under federal law. The Centers for Medicare & Medicaid (CMS) Services monitor these mandatory benefits.

There is no cost to members who meet the SoonerCare income guidelines; however, copays may apply to some services for adults. The latest SoonerCare income guidelines are available at www.okhca.org/income-guidelines.
